

# RESILIAGE

Revolutionising  
community resilience

**RESILIAGE is a 3-year project funded by the Horizon Europe programme that addresses crises impacting European citizens by promoting inclusive social and cultural exchanges, supporting women's roles in Disaster Risk Reduction, and leveraging local heritage as a powerful driver for sustainable development.**

# GENDER DIMENSION IN RESILIAGE

In line with the United Nations Sustainable Development Goals, we work towards empowering women in Disaster Risk Reduction. Our initiatives are designed to:

- \* **Incorporate Gender Perspectives:** By integrating gender analysis and having a gender manager, we ensure all disaster management practices are inclusive, supporting EU goals for gender equality. In addition, RESILIAGE has also included the gender dimension in its internal manual.
- \* **Leverage Digital Technologies:** We use advanced digital solutions to enhance preparedness and ensure equitable resource distribution across all genders and social classes.
- \* **Enhance Scientific and Societal Impact:** Our research incorporates a broad range of social, cultural, and demographic factors, improving both the relevance and effectiveness of our outcomes.
- \* **Support Local Initiatives:** We assist local women-empowerment activities, helping them expand through innovative experiences while at the same time fostering heritage drivers.

# RESILIAGE'S WOMEN-EMPOWERMENT ACTIVITIES IMPLEMENTED SO FAR

## SHEroes Resilience Summer School: Empowering Women in Disaster Risk Reduction through Heritage

Co-organised by POLITO, UNESCO and UCLA, RESILIAGE supports a unique educational programme at the prestigious Castello del Valentino, a UNESCO World Heritage Site located in the heart of Turin, Italy. The 2024 theme aims to bridge the gap between science and heritage studies, focusing on empowering women in these fields.

For more information, check out the website

## Webinar on “Empowering Women in Disaster Risk Reduction through Heritage”

Moderated by Irina Pavlova, UNESCO Liaison Office to the EU, and with the participation of the project coordinator Rosa Tamborrino from POLITO, RESILIAGE supported this webinar that presents a timely and crucial exploration of the intersection between gender, heritage, and resilience-building strategies in the face of disasters.

## OTHER GENDER-EQUALITY INITIATIVES

### Gender Action Plan to Support the implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 Sendai GAP

The United Nations launched the Sendai GAP that aims to accelerate progress towards the mutually reinforcing goals of gender equality and the reduction of disaster risk by ensuring DRR efforts are gender-responsive and support women's empowerment.
